

Epson EB-L265F

DATASHEET / BROCHURE

Create engaging experiential and signage via bright, native Full HD resolution and with flexible installation and display options

The EB-L265F is a cost-effective laser display solution with easy and flexible installation. It can be installed on floor, wall or ceiling (including on a lighting track). A single projector can create a display of up to 310" with a range of flexible content source options including local content playback support (via a memory card), Miracast wireless connectivity and HDMI.

Innovative and cost effective

Epson's advanced laser technology is bright, robust and reliable for a flexible and easy to use digital signage solution. It offers bright and vivid colours in a cost-effective solution capable of creating large displays or even projecting onto 3D objects.

Flexible display options

The EB-L265F enables scalable display sizes of up to 310 inches with a single projector - even larger when edge-blending 2 units. Full HD, 4,600 lumen brightness and 3LCD technology offer bright colours and high quality - perfect for creating engaging and informative displays, even in bright spaces.

It can be mounted wherever needed - wall, floor or ceiling (inc.on a lighting track) with optional accessories. A white model is also available (EB-L260F) to ensure the projector is as discrete as possible.

Create dynamic content

Epson offers free apps for content creation (Epson Creative Projection & Epson Projector Content Management). Content can be played directly from USB (including playlists, videos, and signage content) using the built-in playback feature. Users can even upload and playback content wirelessly with built-in Wi-Fi and Miracast functionality.

Low maintenance and high reliability

Up to 20,000 hours maintenance-free use using a laser light source with a 5 year warranty make this a cost-effective fit-and-forget display solution you can rely on.
